

FINISHES
BROCHURE

The Onelbj range is a collection of some of our favourite finishes, created with 15 years of experience in hard surface sublimation.

This range represents a small taste of the options that are available using our in house system.

Our finishes can be applied to a variety of metal products, from Flat sheets and panels up to a variety of 3d shapes and extrusion.

Please be in touch to discuss how we can help.

METALS

IMAGERY

Do you already have a material you want to match?
Using our in house matching service, we can create a
finish to match your existing materials.

Our in house system isn't just great for woods grains
and other building materials. We can finish HD
imagery just as easily as any other finish.

If you have an Idea for a unique finish or imagery,
please get in touch.
